Exhibit 3 – Adams/Butzel

Overall Evaluation – Poor Condition

- The main field (of four total) had lights and a scoreboard that was inoperable.
- The main field fence was damaged with a hole in it, and there were two piles of debris on the spectator bleachers where children were playing.
- The three smaller fields had long grass, particularly around the backstops and benches. They also had no scoreboards.
- Backstops were rusted and there was no protective fencing for the player benches.
- There was not enough athletic mill (baseball infield surface material) on the diamonds.

The main field scoreboard was inoperable and in severe disrepair.
